

## Become an Emergency Medical Technician!

The Emergency Medical Technician - Basic (EMT-B) course is designed to train individuals to provide comprehensive emergency medical care at the basic life support level to victims of illness or injury. The course is an intensive three months of classroom, skills session, and clinical time. EMT's must undergo approximately 160 hours of training. The EMT-Basic course is designed to train individuals to provide comprehensive emergency medical care at the basic life support level to victims of illness or injury. Upon completion of the course, students are able to assess and appropriately treat conditions ranging from simple fractures, stroke, and chest pain to critical trauma, cardiac arrest, and childbirth. After successful completion of the course, students may then be eligible to sit for the national standard written and practical exam administered by the CT Department of Public Health in order to be certified as an EMT.

To register for the EMT Basic program, complete the registration form and send to Newington EMS. Deadline for registration and payment is August 31<sup>st</sup>.
